

What is EZLynx Vehicle Pre-Fill?

EZLynx Vehicle Pre-Fill is an optional, time-saving lookup feature that ensures quoting with correct VIN numbers. Lookup the vehicles registered to the applicant's address with the click of a button. From a list, easily select the vehicles to add to the rating application.

An agency may receive a certain number of complimentary searches each month based on their EZLynx contract. Or, place a credit card on file with EZLynx, in order to use the lookup feature or to continue using the feature after the free lookups are depleted each month.

Polk - vehicle only lookup = .40 fee.

Lexis Nexis - driver/vehicle combo lookup = .58 fee.

How does vehicle pre-fill work?

The system looks up vehicles registered to the address entered on the applicant's Details tab.

How do I use the feature?

- Go to the applicant's Vehicles tab.
- Click [Pre-Fill Vehicles](#) and agree to terms of service.
- Search for vehicles.
- Place a check mark next to the vehicles to add to the application and click [Add Selected Vehicles](#).
