

# EZLynx for Outlook Information

Thank you for your interest in EZLynx for Outlook.

EZLynx for Outlooks is a powerful tool that makes the time you spend working emails more productive by quickly creating a virtual paper trail of communications within EZLynx applicant accounts.

### Take Advantage of the Benefits:

- Reading emails? EZLynx for Outlook automatically locates applicants with matching email addresses.
- Save important emails and attachments to policies in EZLynx.
- Is the applicant's email address missing or different in EZLynx? No problem – search by applicant name.
- Keep a clear, permanent record of email interactions; useful for Errors and Omissions.
- Did an email trigger an important to-do? Create tasks and reminders for anyone in your agency while working emails.
- Manage email campaigns from EZLynx for Outlook.
- Learn more by watching the 4-minute video...

**Outlook 2007, 2010, 2013 or 365 Desktop MUST be installed on the PC.  
Compatible with Outlook or any other email provider.**

EZLynx for Outlook is currently a \*Windows PC based product.

\*Macs / Chromebooks can use a virtual emulation of Windows with a program like Parallels for Mac.
