

Quote Results – Sort Options

A Rating Engine Feature

Carriers return various payment options with their EZLynx quotes. The EZLynx Quote results page includes a *Payment Option* dropdown menu that includes the following options: **Full Pay, EFT Premium and Monthly Premium**. Each Payment Option has several sort options, for example *Low-High (Disregard Term)*.

We recommend setting the default *Payment Option* as *Full Pay Premium*.

To use the payment and sort options:

- At the quote results page, use the dropdown boxes at the upper right to set a payment option and sort filter.
- **IMPORTANT:** Some carriers do not send EFT and monthly premium details, so when these payment options are selected, those carriers are displayed at the bottom of the sort. Only carriers who transfer EFT and month premium information will be included in those payment sorts. **Therefore, more competitive carriers MAY be at the bottom of the sort.**

Attention: Changes have been made to the applicant info since this quote was returned.
