

Thank you for your interest in **EZLynx for Outlook!**

This powerful tool will make the time you spend working emails more productive by quickly creating a virtual paper trail of these communications in your EZLynx applicant accounts.

Benefits:

- Automatically match emails and their attachments to your Personal and Commercial applicant accounts.
- Keep your email interactions organized, and create a permanent activity record for Errors and Omissions purposes.
- Even when no match found for incoming email address, quickly locate and attach to any applicant. This accommodates emails from any address, whether from another applicant email, family member, attorney, etc...
- Hyperlink for quick access to the applicant's EZLynx account.

Watch the video here...

EZLynx for Outlook is currently a Windows based product.

Compatible with all email providers when Outlook is installed on the PC.

Compatible with Microsoft Outlook 2007, 2010, and 2013.
